<b>Description:</b>	<ul style="list-style-type: none"> <li>ISO/IEC 80079-37 and ISO/IEC 80079-37 have been available internationally now for almost three years and will soon be available as SANS documents. More than half of the IECEx certification bodies are already accredited to certify product to these standards, and in some countries, they are already mandatory standards. Our industries will soon see imported products that are certified to these standards, and</li> </ul>			

**ENGINEERING COUNCIL OF SOUTH AFRICA**

	<p>our local IA certificates will be based upon the import certificate. This presentation will give more detail and insight to the impact on South Africa as it is now and going forward.</p> <ul style="list-style-type: none"><li>• The presentation is a overview of the current types of Interface technology used in hazardous areas, the need for its usage and how the various technologies have a commercial impact in the world today.</li></ul>
<b>Instances:</b>	Single <input checked="" type="checkbox"/> Multiple <input type="checkbox"/>
<b>Validation Period:</b>	Valid from: 2018.11.13 Valid to: 2018.11.13
